## Projects

### Imagify (Individual)

**React | Node | Express | MongoDB | Stripe | Stability AI | Tailwind | JWT**

Imagify is a full-stack MERN application that converts text into images using Stability AI's text-to-image generation. It also features Stripe integration for secure payments on premium image generation. ([Source Code](#))

### BookSphere (Individual)

**Spring Boot | React | JWT | Tailwind | MySQL | MUI**

Developed a responsive web application for browsing, purchasing, and managing books. Features include genre-based book browsing, detailed book views, cart management, checkout process, order summary, order confirmation, and profile viewing. ([Source Code](#))

### Flower Paradise (Individual) (Ongoing)

**React | Node | Express | MongoDB**

Built a custom flower bouquet ordering website with an intuitive frontend for a seamless shopping experience and a robust admin panel for efficient inventory and order management. ([Source Code](#))

### PinkPearl (Group)

**PHP | HTML | CSS | MySQL**

Collaboratively built a full-stack website for a women's fashion boutique, including product catalogs, user account management, order processing, and an admin panel for efficient management. ([Source Code](#))

### Notes App (Individual)

**React | Node | Express | MongoDB | JWT**

Developed a dynamic notes app for adding, editing, deleting, and searching notes, ensuring a seamless user experience. ([Source Code](#))
